

Calling all Citizen Scientists!

HELP US TRACK A CONTROLLED BURN

The Nature Conservancy began conducting controlled burns on this site in 2016, to benefit native plant and animal communities at the Nassawango Creek preserve. Now we need your help to monitor the results. Please follow the instructions below. We will compile the photos submitted by citizen scientists like you to document the long-term success of our controlled burn program.

- 1.**  Place device into the bracket.
- 2.**  Take a photo of the view, without a filter.
- 3.**  Post your picture to social media using the hashtag: **#nassburn** to Facebook, Twitter or Instagram.

THANK YOU FOR BEING A CITIZEN SCIENTIST!
